Saudi Music Repertoire Project / MC - MOC

MANAGEMENT CONSULTANCY / PROJECT MANAGEMENT

RPM Scope Included:

وزارة الثقافة
Ministry of Culture

هيئة الموسيقى
Music Commission

GOALS

The Ministry of Culture and the Music Commission aim to establish the (Saudi Music Repertoire) according to highest archiving standards, by collecting 2,500 classical music artworks representing the Saudi heritage to archive, and preserve it from loss and disappearance, which included:

- ▶ Saudi music artworks, from the beginning of start of Saudi songs and up to mid of the 1980's.
- ▶ National songs to present time.
- ▶ The music artworks composed by Saudi musicians and performed by Arab artists & singers.

APPROACH

In attending to requirements and objectives, we at RPM have developed methodology, which relied on 3 methods according to the following data:

- ▶ Search and Investigation.

- ▶ Documenting according to the years in which the music artworks were completed, from the beginning of the first recorded / documented artwork in 1920 AD to 1973 AD, because these works have become a public right.
- ▶ Obtaining needed copy rights of for cultural / commercial usage of the music artworks in which the artist / the inheritors are the exclusive owner of the copy rights.

THE PROJECT

- ▶ Collecting and documenting 2500 Saudi classical musical artworks from the making of the first recorded Saudi song to 1985 AD.
- ▶ Negotiating with Saudi artists / heirs to obtain required consent on music artwork and usage rights.
- ▶ Remastering and enhancing the quality of sound/audio recordings.
- ▶ Digitizing the artworks / files for digital archiving.

Cultural & Traditional Recipe Codification / CAC - MOC MANAGEMENT CONSULTANCY / PROJECT MANAGEMENT

RPM SCOPE INCLUDED;

Ministry of Culture

Culinary Arts Commission

PROJECT SUMMARY

As a result, and among other main factors, Asir Region was awarded the IGCAT Award as “World Region of Gastronomy 2024” as the first region outside Europe to earn this important accolade that recognizes Asir commitment to protect and promote local food and cultural uniqueness.

EXECUTIVE SUMMARY

RPM was commissioned to develop and execute a “Codification Methodology” aimed to; define, capture authentic traditional culinary arts and recipes across various regions in Saudi Arabia, and establish a national culinary arts archive of recipes (food and drinks) and cuisines, based on a well-defined criteria and classification, and sourced directly from local communities in urban and rural areas, with participation of a large base of individuals, elderly citizens, civil society groups and NGO’s, and aligned with UNESCO definitions, criteria’s and standards.

RPM have successfully developed the methodology and execution procedure and disciplines, and completed the codification in the Northern, Western, Southern and Central regions of the Kingdom, with Eastern region currently in process.
